## work experience

### Elzero Web School – Frontend Intern

June.2023-August.2023

- I gained a proficient understanding of HTML and CSS, allowing me to structure and design web pages effectively. In addition, I learned the core aspects of JavaScript, such as variables, data types, operators, and control structures. These skills enabled me to create interactive projects.

### Gaza Sky Geeks – JavaScript

April.2023 - June.2023

- learned the most up-to-date technologies in JavaScript, including JavaScript Basics, Objects and Object Manipulation, DOM Manipulation, AJAX and API Calls, Functional Programming, Error Handling and Exceptions, ES6+ and New Features, and more.

### knowledge Academy – Basic of HTML and CSS

August.2020 – September 2020

- I have gained a preliminary understanding of some concepts in HTML and CSS, and I have built my first interactive project.
- Establishing a strong network of relationships in the field.
